

## PELGRIMSTELOGIE

Naam van kursus: Pelgrimsteologie  
Datum begin: 17 Januarie 22 Eindig: 30 April 2022

Met die Gereformeerde tradisie as vertrekpunt, word ondersoekend gekyk na huidige tendense in geestelike groei waarvan die integrasie tussen geestelike en persoonsontwikkeling sterk deur kom. In geheel gesien, is ons in 'n tyd waar daar baie meer vrae as antwoorde is. Om nuut te dink oor die Bybelse konsep, “vreemdeling-wees op aarde” skep 'n kragtige verwysingsraamwerk vir gelowiges in ons tyd. Daar kan ook gepraat word van 'n nuwe geestelike bewussyn.

Die kursus hou voordeel in vir alle voornemende pelgrims om voorbereiding wyer te maak as net die fisiese. Ook vir diegene wat reeds 'n pelgrimstog voltooi het, is waarde ingebou in die prosessering van pelgrimstog ervarings asook om gestalte te gee aan die ervaring wat gewoonlik beskryf word met die woorde, “my lewe kan nooit weer dieselfde wees nie”.

Die kursus skep ruimte vir wat eie en uniek is aan enige pelgrim ervaring en daarom word enige persoon, ongeag geloof, verwelkom. Uitkomst en inhoud word gebou op die geskiedenis en betekenis van pelgrimstogte binne die Christelike tradisie, asook die gebruik van ander dissiplines om sodoende die waarde van 'n pelgrimstog te ontsluit.

'n Geestelike reis-plan beteken ook alles is nie altyd net 'n raaisel nie en insigte kan ook ontsluit word in die gebruik en hantering van rituele, simbole, narratiewe, eenvoud, stilte en geestelike vriendskappe. Die ideale uitkoms van 'n self-ontwerpte persoonlike pelgrimstog van ten minste een dag is ook deel van die program asook die ontwikkeling van 'n persoonlik-geestelike reis-plan.

Vir bedienaars van die Woord is daar toegevoegde waarde in die kursus belyning met die Raamwerk vir Missionale Ekklesiologie (Alg Sinode: 2013), met spesifieke verwysing na leierskap ontwikkeling.

“Leierskap opleiding vir missionale kerke beklemtoon innovasie. Dit is opleiding wat kreatiwiteit en verbeeldingskrag aanmoedig en ondersteun. Dit het ook te doene met die krag van metafore en narratiewe en die vermoë om oop, skeppende vrae te vra”.

## **PILGRIMS THEOLOGY**

Name of Course: Pilgrims Theology

Start date: 17 January 2022

End: 30 April 2022

With the Reformed tradition as foundation, the latest trends in faith development will be explored. The integration between faith and personal development has become one of the most prominent trends while being in a time slot where questions have outnumbered answers. The Biblical concept of “not belonging to this world”, needs to be redefined in the context of spiritual consciousness.

This course presents benefits for those preparing for a pilgrimage with a comprehensive approach that goes further than just the physical preparation while also providing a platform for those who already did a pilgrimage and still needs to process the impact and after-effects of being a pilgrim. The statement, “my life could never be the same”, captured the essence of this. Aligned with the current context of pilgrimage, such as Camino de Santiago, which became a neutral territory in terms of religion, cultures, etc., anyone interested will be welcomed.

The outcome and content are built upon the history and meaning of pilgrimages within the Christian tradition, while also tapping into other relevant disciplines to unlock the immense value and meaning of pilgrimages in general for personal and spiritual growth.

The spiritual journey provides insights and perspective to the pilgrim in many unforeseen ways. Investigating the role of rituals, symbols, narratives, simplicity, silence and spiritual friendships, as important features of pilgrimages, are integrated in the course, with the desired outcome of a self-designed pilgrimage of at least one full day.

Added value for ministers of religion is embedded in the course with leadership skills development going with innovation, creativity, imagination, the use of metaphors, narratives and creative questions.

This course is meant to further the experience gained with lecturing at Princeton Theological Seminary at the Department of Spiritual Theology. The methodology followed
