

THE VISION, GOAL AND EDUCATIONAL OBJECTIVES

Vision Statement:

The School of Social Innovation at Hugenate Kollege provides knowledge based cutting edged education, research and professional services to society, with the purpose of making our world a better place within an academic and professional knowledge institution with social impact.

Goal:

The goal the School of Social Innovation is to facilitate, through education, research and service, the development of social innovation leadership to engage with complex societal challenges.

To serve this purpose, the School of Social Innovation builds individual competencies and institutional capacity. This, on its turn, results in the co-creation and sharing of public value effectively and ethically. The pursuit of this goal will be guided primarily by the values incorporated into the faith-based golden rule of doing unto others as we want done unto to ourselves.

Educational Objectives:

In the education domain the objectives of the School of Social Innovation are to deliver professional and relevant executive education, particularly through a set of executive short courses presented as standalone shorter courses, which over time will constitute a diploma, post-graduate diploma and, finally a Master's degree in Leadership, Social Innovation and Compassionate Management.
